It is in contemplation to greatly extend the sphere of its usefulness by the establishment of a clinique, contributing thereby to the advancement to medical science, and aiding the student in the study of his profession. We also anticipate opening an Infirmary for the treatment of out-door patients thus hoping to popularize our noble Institution, and make it entirely acceptable to the community.

The Directors take this public opportunity of expressing their regret at the resignation, in consequence of absence from the city, of their honored Secretary, John M. Lawrence,—untiring in his exertions in aid of the true interests of the

Hospital, zealous and active in the discharge of his duties, he carries with him in his retirement our grateful acknowledgments.

Reverend Drs. Lyons, Adler, Isaacs, Einhorn, Hubsch, Vidaver, Mielziner and Gutheim continue their good offices in administering consolation and advice to the inmates of the Hospital.

Great praise is due to the Medical Staff for their prompt and and invaluable services.

The House Physician, Dr. Teller, still continues to receive our approbation for the attention and ability of which he gives evidence in the discharge of his important duty.

The Superintendent, Mr. Schwarzbaum, is entitled to the commendation of the Directors for his devotion to the interests of the Hospital.

Your Committee congratulate the Directors on the fact that our New Building is nearly completed.—The Jewish community has indeed good reason to be proud of an Institution that provides with equal liberality for Jew or Christian, and is ever ready to afford aid and comfort to suffering humanity, without distinction of faith or nationality. Such attributes should entitle it to the admiration and support of the whole community.

The Ladies' Auxiliary Society for their kind co-operation and benevolent assistance, and the Reverend clergy for their cheering visits and comforting words to the sick, are entitled to our grateful acknowledgments.
